The following explains how your personal data collected during your visit to this website and during any registration is collected and processed.

Our website is generally accessible without providing your personal data.

Your data is processed in Switzerland and is stored on Swiss servers (except Google Analytics).

Which data is collected, how and for what purpose

When you visit our website, the hosting provider of our website, XXXX, automatically collects and stores information in so-called server log files, which your browser automatically transmits to us. These are usually:

- IP address
- Browser type and browser version
- operating system used
- referrer URL
- Host name of the accessing computer
- Date and time of the server request

The information/data mentioned is neither assigned to specific persons nor linked to data from other sources. However, we reserve the right to check this data subsequently if we become aware of any concrete indications of illegal use.

All data of this website are stored with our hosting provider, who is located in Switzerland.

We also collect the personal data you voluntarily provide when you register to receive further information on our website or when contacting us by e-mail (in particular e-mail address, name).

Your data is collected and processed for communication purposes, in particular when we inform you about our services and products, as well as for the technical administration, analysis and further development of our website and for the maintenance of our contact database and for marketing purposes.

Other parties who have access to information we collect

With the exception of the provider of our website, we do not make your personal data available to third parties unless disclosure is prescribed or permitted by the applicable law, e.g. to supervisory or other authorities.

Data security / SSL encryption

In order to protect your personal data, we have implemented appropriate technical and organisational security measures.

This website uses SSL encryption for security reasons and to protect the transmission of confidential content, such as the requests you send to us as the operator of this website. You can recognize an encrypted connection by the fact that the address line of the browser changes from "http://" to "https://" and by the lock symbol in your browser line.

If SSL encryption is activated, the data you transmit to us cannot be read by third parties.

However, we draw your attention to the fact that any data transmission on the Internet (e.g. communication by e-mail) is generally not secure and we accept no liability for data transmitted to us via the Internet. Unfortunately, absolute protection is not technically possible. It is also possible that data may be transferred abroad and thus at

best to a country with a lower level of data protection than Switzerland, even if the sender and recipient are located in Switzerland.

All information does not apply to the websites of third parties and the corresponding links given on our website. HOLISTIFY CAPITAL AG assumes no responsibility and liability for the content and compliance with legal data protection regulations by the operators of linked websites.
